

AUTOMOTIVE

IAA 2018

In addition to the latest developments of our Car Transporter (Range Eurolohr 2.53 New, Eurolohr 3.53 New, new TALE, new Maxilohr...), we are pleased to introduce you to the new myLohr portal. Furthermore, you will also get a chance to test our Automated loading optimiser and discover our new AXle Electric Assist Lohr.

**2018 product range
 Safety, versatility and outstanding performance.**

LOHR Automotives offers and expands its range of products which combine all the latest innovations and meets in broadest possible way the needs, of different fields of vehicle transport activity.

- **EUROLOHR:** First-ever fully detachable articulated car-transporter, Eurolohr remains the universal solution enabling a transport company to optimize both productivity and profitability through:
 - Enhanced available loading volume
 - Optimal weight distribution along the carrier in compliance with all regulations
 - High flexibility in management of flows
 - Possible loading when truck disconnected
 - Easy and quick truck swap
 - More efficient management of the fleet

- **EUROLOHR 200 – 300:** A broader range with a new body and trailer:
 - New body C5 to further improve load performance with the new retractable canopy
 - New stacking on the trailer Eurolohr 200 and 300 to facilitate loading

- Bearer flanks trailer to optimize the loading volume
- Ability to load the top platform of the body from the bottom of the trailer
- Mechanical locking cylinders or self-locking cylinders to facilitate and add more security in the use
- Numerous options available such as disc-brakes, body rear extensions on hydraulics...

- **SRTC Range:** a brand new range of semi-trailers dedicated to High and Heavy transport.
- **MULTILOHR/CHR Range:** Providing a "traditional" solution for all requirements of mixed loads. Perfect link between light and heavy vehicles transportation.
- **MAXILOHR Range:** Dedicated to all types of heavy vehicles transportation, new trailers, extended modularity.
- **SHR Confidential Range:** new trailer for fully enclosed transport with hydraulic liftable roof and hatch.
- **TALE:** dedicated for all caravans, campers and mixed loads.

And all technical solutions to your logistics needs of transport vehicles: wreckages urban distribution (solo 3, 4 or 5 cars) ...

myLohr: your Digital Operation Dashboard.

AXEAL: AXle Electric Assist Lohr electric axle with a regenerative braking system providing an electric assistance during accelerations

IMBRICATOR: Automated loading optimiser.

About Lohr:

For more than 50 years, the French family-run LOHR Group is a global specialist in the design, manufacturing and marketing of transport systems for goods and people and generates 80% of its turnover through export.

Today, with a global manufacturing footprint, with 7 plants across 3 continents, 2,000 employees and a research and development centre with 120 engineers and technicians, LOHR continues to assert its position as a world leader in car transporters, to develop its road-railway activity and to develop projects for sustainable mobility.

Come and discover our solutions for your operation at the IAA exhibition in Hannover from September 19st to September 27th, 2018. We will be glad to welcome you on our stand: Hall 24 Booth A06. Come and check our brand new Eurolohr 2.53 WXS and new Eurolohr 300 as our new Confidential SHR and TALE 2.32E displayed on our outdoor stand FG D42 - FG D44.

Looking forward to meeting you there!
