

Cristal by Lohr ends the year on a high note

At the end of this year, good news for *Cristal by Lohr*: the first *Cristal* shuttles are joining the city of Ajaccio, the first reference for the electric shuttle from *Lohr*, soon to be followed by Orange, Avignon and Saverne.

The city of Ajaccio plans to operate the first shuttles in the center on two of its existing lines. Initially, there will be four shuttles per line, followed by integration with other lines in the city's network.

« Cristal is the most relevant transport solution for Ajaccio for our need to serve the heart of the city, thanks to its performance in terms of insertion and its flexibility » says Olivier ANDREANI, Director of Transport and Mobility for the Communauté d'Agglomération du Pays Ajaccien.

« Cities are looking for innovation in public transport with a strong demand for modularity. The Cristal shuttle adapts to the traffic and transport demands of users. Cristal can be used at peak times to form a convoy of 4 shuttles to carry up to 56 passengers » explains Jean-François ARGENCE, Director of New Mobility at Lohr Industrie.

About the *Lohr* Group :
